

# Town Center Area Community Improvement District Project Updates

## Project Name:

Chastain Road Improvements

## Project Number:

GDOT Project Numbers: NH-75-3(243) and NH-575-1(36)

Cobb County Project Number: TCID-06 and TCID-08

ARC Project Number: CO-308 and CO-310

## Project Description:

This operational, safety, and pedestrian improvement project consists of adding turn lanes at all major intersections, including dual left-turn lanes and exclusive right-turn lanes at most of the intersections. New traffic signal equipment will be installed throughout the corridor with an interconnected system that allows each traffic signal to communicate with the others as well as communicate with CCDOT's traffic management center. The project also adds bike lanes throughout the corridor and sidewalks on each side of the roadway.

The Chastain Road bridge over I-75 was raised to improve a vertical clearance for trucks on I-75, and the Chastain Road bridge over I-75 and I-575 was widened to accommodate the additional turn lanes. Project limits are from Big Shanty Road on the west side to a point just past I-575 on the east end.

## Project Schedule:

On Schedule

## Current Phase of Implementation:

Project Complete

## Specific Project Status:

The contractor is currently completing curb, gutter, and sidewalk sections throughout the project limits. As sidewalk sections are completed, areas will be backfilled, final graded, and grassed. Final traffic signals should be installed in early to late fall.

## Project Value:

Task	Amount/Funding Source
Design	\$724,296/Town Center Area CID
Right-of-Way Acquisition	\$231,181/CCDOT
Construction	\$10,315,179/GDOT
